Barangay Mapulang Lupa Information System (OJT Capstone)

Barangay Mapulang Lupa May 2022 - August 2022
Mapulang Lupa, Pandi Bulacan

- Create an Information System for the citizen of the Barangay Mapulang Lupa in Pandi Bulacan. To improve the operations and the management of the information of each individual who lives in the barangay.
- The system was created using HTML, CSS, JAVASCRIPT, PHP and MYSQL.

Aroma PH Ordering and Sales Inventory System

Thesis

- The system was proposed to streamline the business operation of Aroma PH, and to improve the sales and inventory of the client which she does manually.
- The system was created using HTML, CSS, PHP, AJAX, JAVASCRIPT AND MYSQL. We also use libraries such as bootstrap and phpmailer for frontend Development and order confirmation.
